# SONDER

everyone has a story.

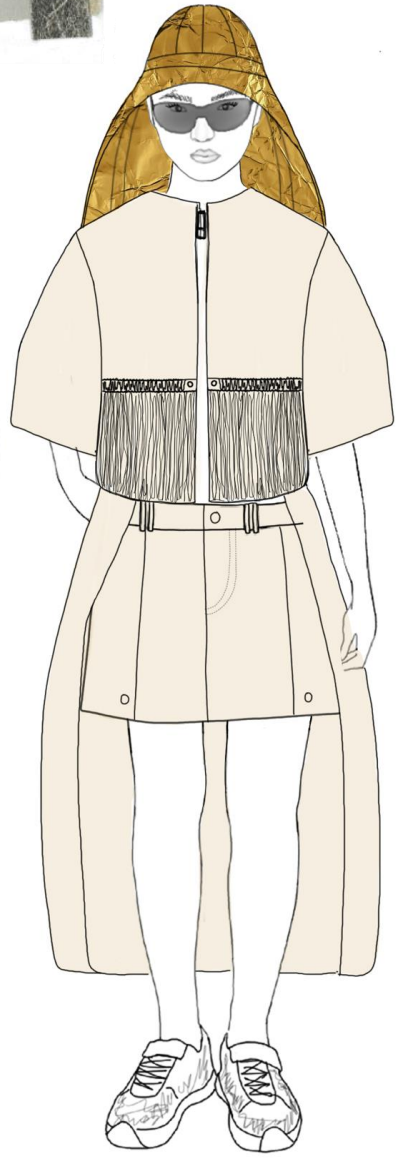

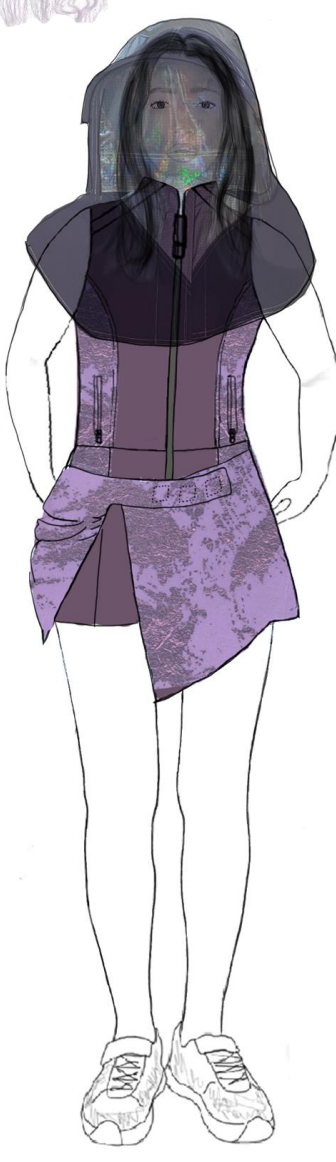

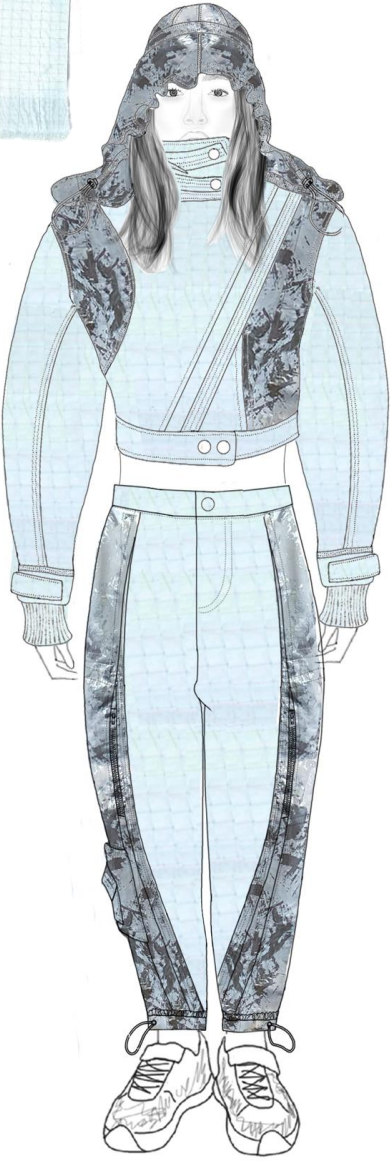

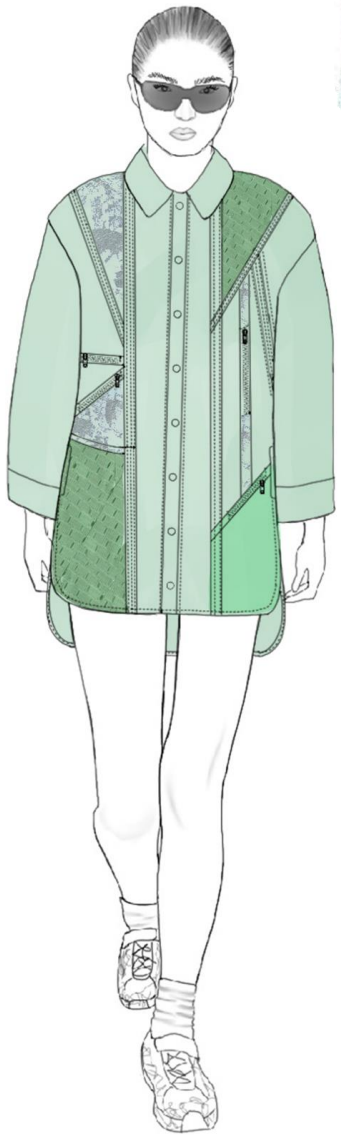

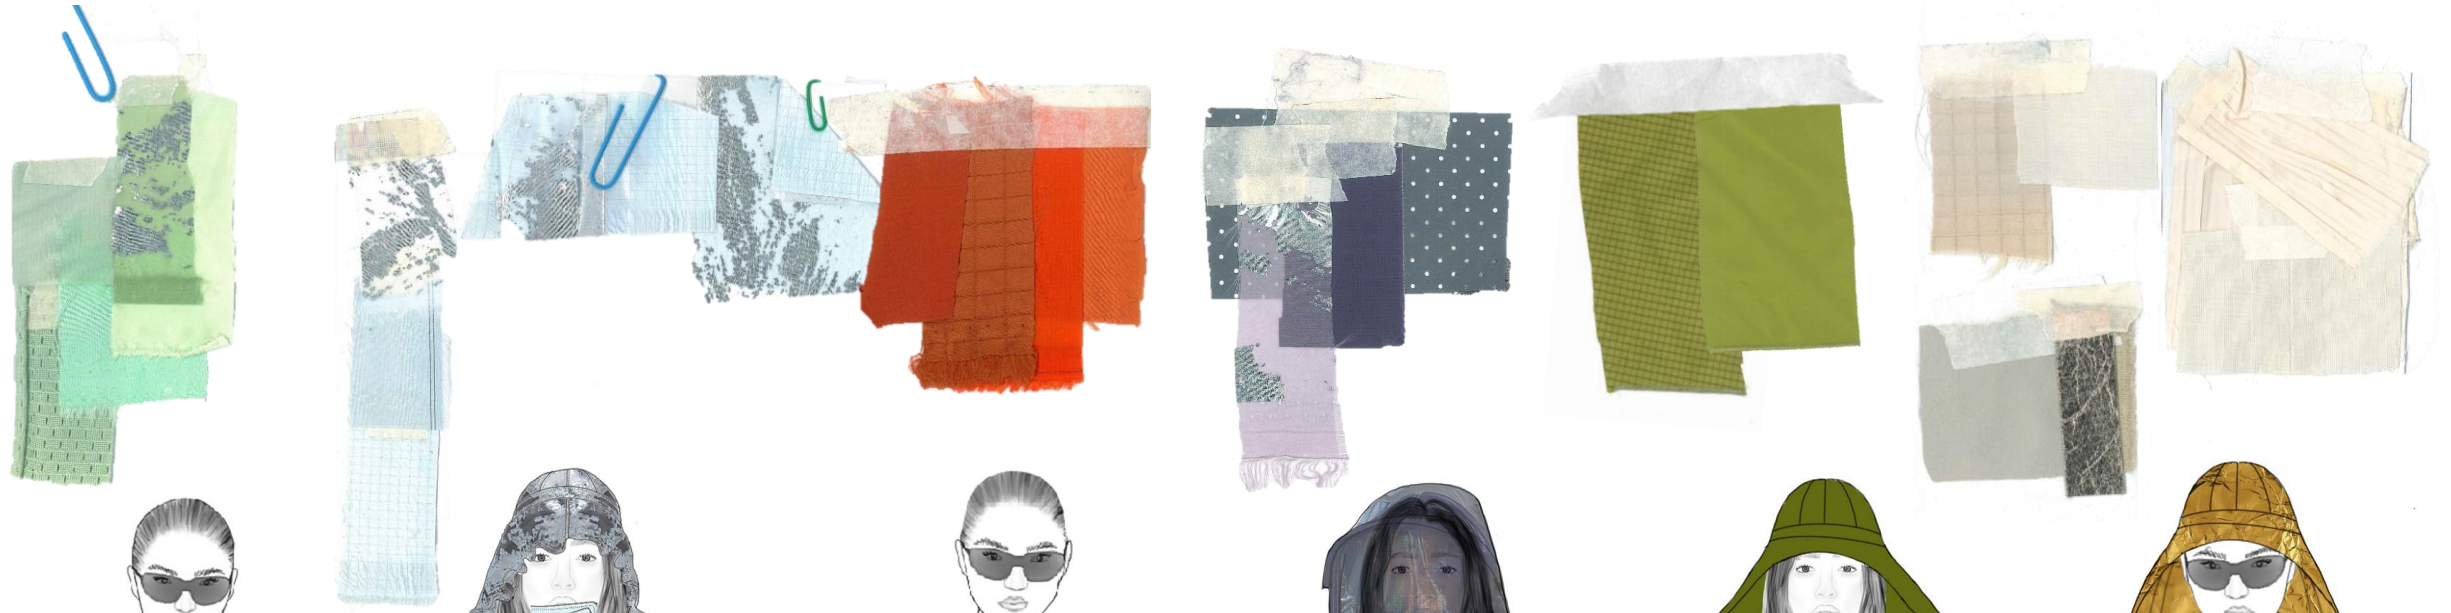

sonder is the realisation that everyone around you is living a life as vivid as your own.  
a story of four women who live completely different lives, that happen to cross paths in unusual circumstances.  
my collection takes inspiration from elements of each of their lives, combined together to represent the connection between humans.

The Dictionary of Obscure Sorrows. An original dictionary of made-up words, written by John Koenig.

sonder, the realisation that each passerby is living a life as vivid and complex as your own.  
there are thousands of other lives that you'll never know, in which you might only appear in once, as a blur of traffic passing on the motorway or as a lit window at dusk.
