Iconic style, reworked. Our take on the new, more sustainable Stan Smiths. Made with recycled materials by @adidaslondon, designed and customised by @\_gonoe. ♻️

Same shoe, two different designs.

This design of Adidas Stan Smith Primegreen in collaboration with Adidas and Depop features sewn details such as logo pockets and laceshields which differ on both shoes. One includes Adidas Originals logo and the other one is Recycle. Alongside hand-painted End Plastic Waste and Save the World slogans on inner sides, shoes promote lovely message and support the campaign.
