

Fade into Denim

Final Major Project Portfolio
ChiYing Cheng

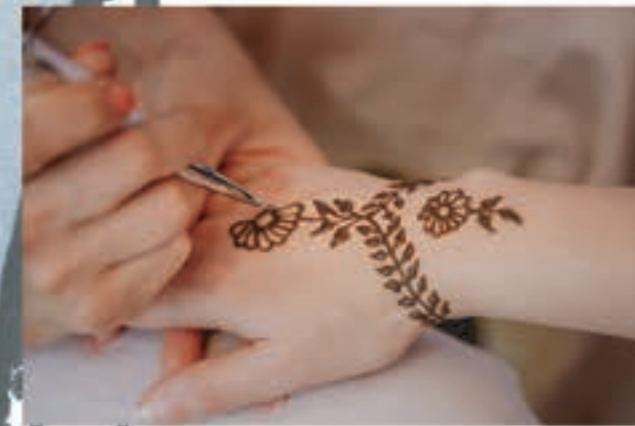

Inspired by the iconic hunter jacket, blending sustainability and practicality

The garments feature attachment pockets for functionality, addressing the limitations of micro bags

HENNA:
placed on the top of the hands can be suggestive of protection and often includes shield designs

BUTTERFLIES:
represent transformation or rebirth and new beginnings

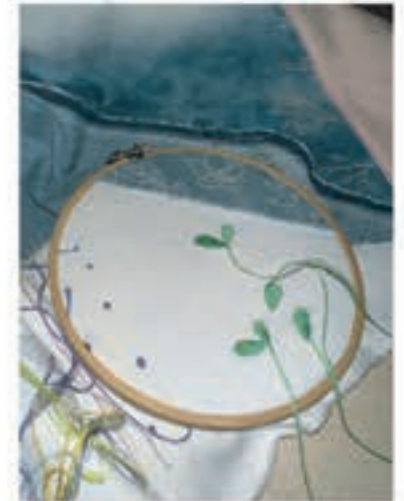

FLOWERS:
as represent beauty and new beginnings

Engrave on denim
(which is a technique of laser cut)

Embroidery on denim
after engrave

Process

What is Refashioned?

It also known as Upcycling Fashion. It's process of taking old or discarded garment and materials, transforming them into new, fashionable, and unique, limited edition outfits.

It aim to reduce waste, conserve resources, and minimize the environmental impact of clothing production.

Obsolete, Old or Discarded Product

Transformer materials into something of greater value than the original

Greater Value

Redesign

Second-hand

Reused

Converting

Decompose fabric + Creative process

Zero-waste

Re-manufacturing

Rebirth

Greater value with New functionality

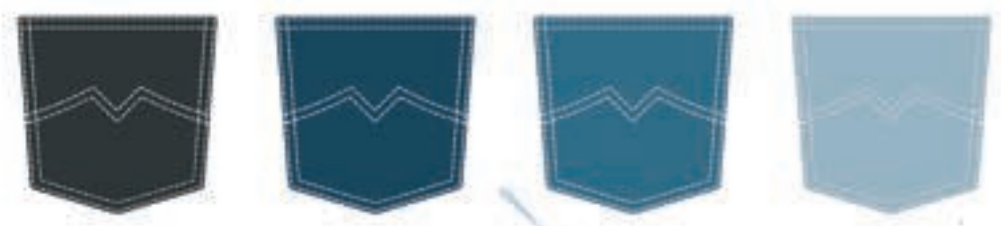

UPCYCLE

Sustainability

Reduces the influence of fashion on the environment
