

COCOON

integrate into hood?

ADD 'MOUTH GUARD' PIECE

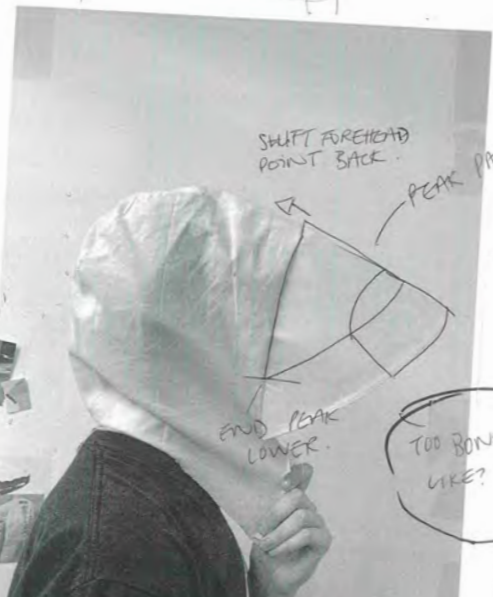

more abstract peak shapes

mouth guard linking back to felt makes

HOOD DEVELOPMENT

peak integrate into hood make smoother / more seamless  
referencing back to felted marks

SHIFT FOREHEAD POINT BACK

PEAK PANELS

break up shape with panels

END PEAK LOWER

TOO BONNET LIKE?

develop + alter away

Experiment with pleating / draping with nood?

TRANSFORMABLE

could the cap fold back

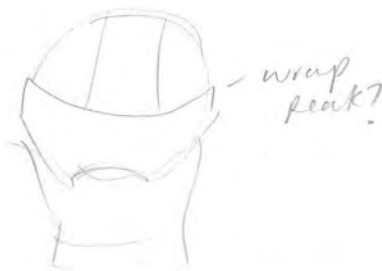

TRANSFORMABLE

could the cap fold back

TRANSFORMABLE

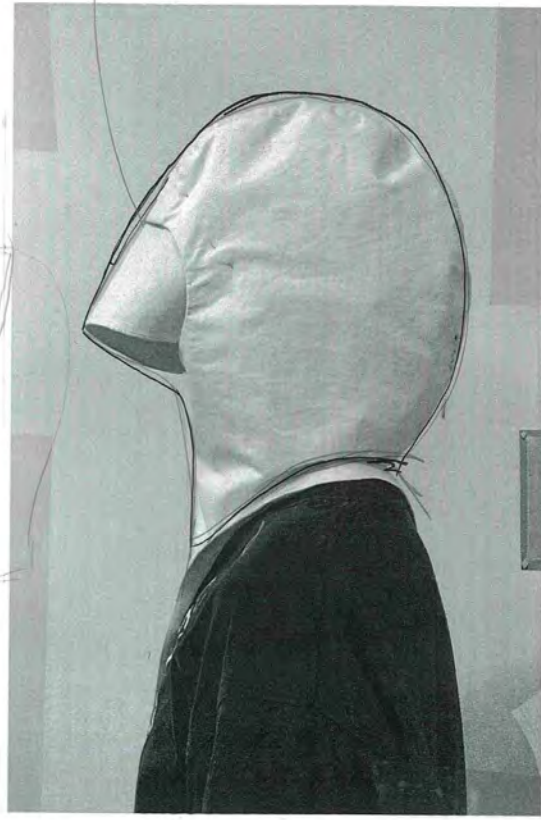

could the cap fold back

wrap peak?

FIND A WAY TO MAKE THIS WORK LESS DISJOINTED

DOWNWARDS

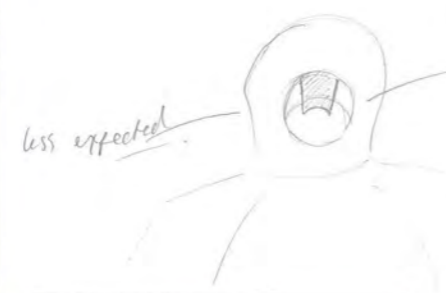

DOWNWARDS

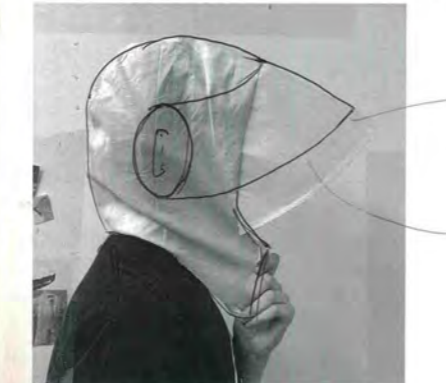

HOOD DEVELOPMENT

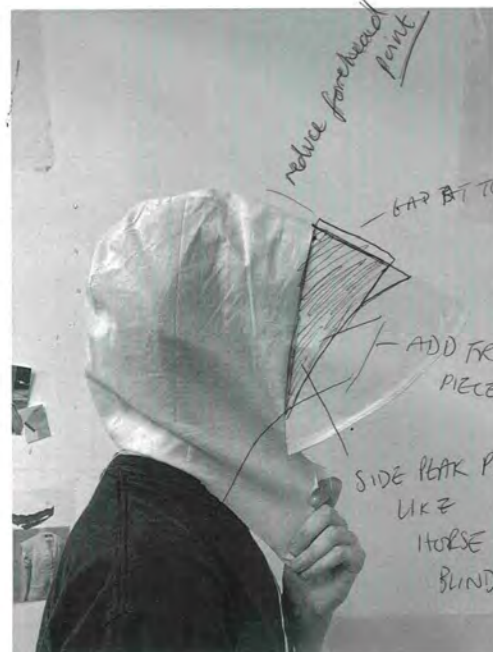

SIDE PEAKS: like horse blinders

less expected

SIDE PEAK PANELS LIKE HORSE BLINDERS

reduce forehead point

GAP AT TOP

ADD FRONT PIECE?

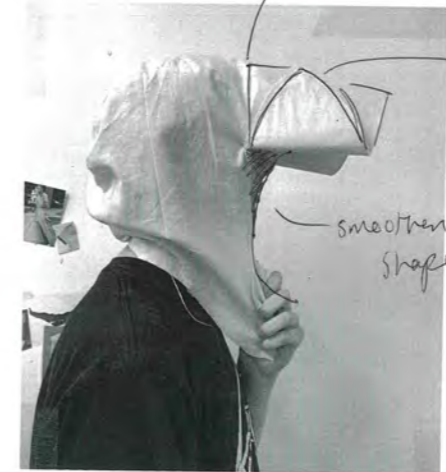

SIDE PEAK PANELS LIKE HORSE BLINDERS

Add hidden — starting to dislike

Extra long peak

how would it fall? reinforced?

sitting further back on forehead

transformed flaps?

lin cores / uncovers face

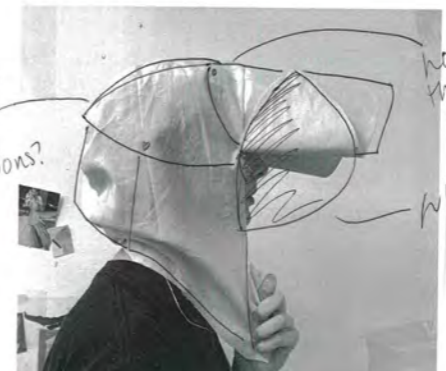

smoother shape

whole shape integrated links to other references

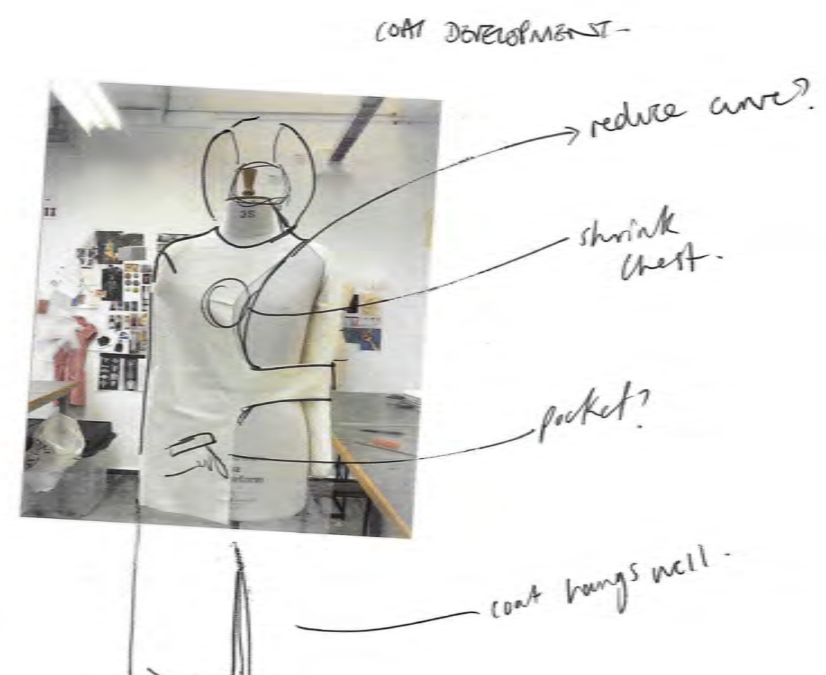

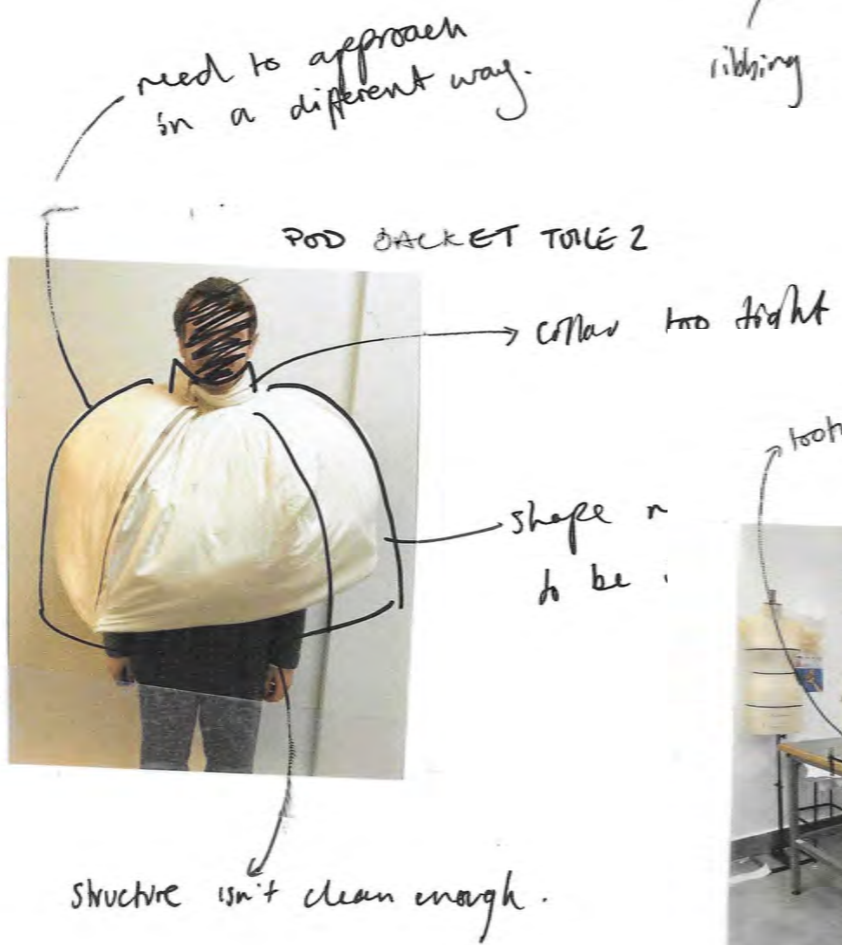

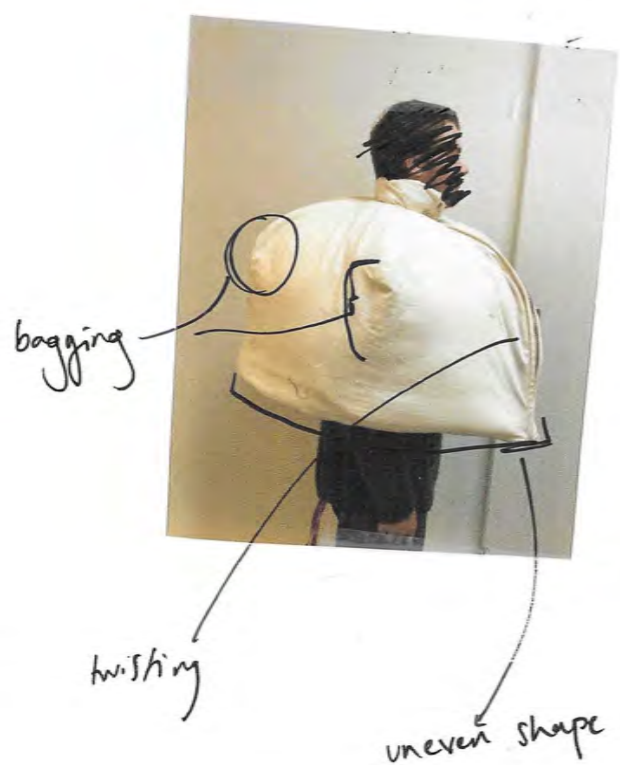

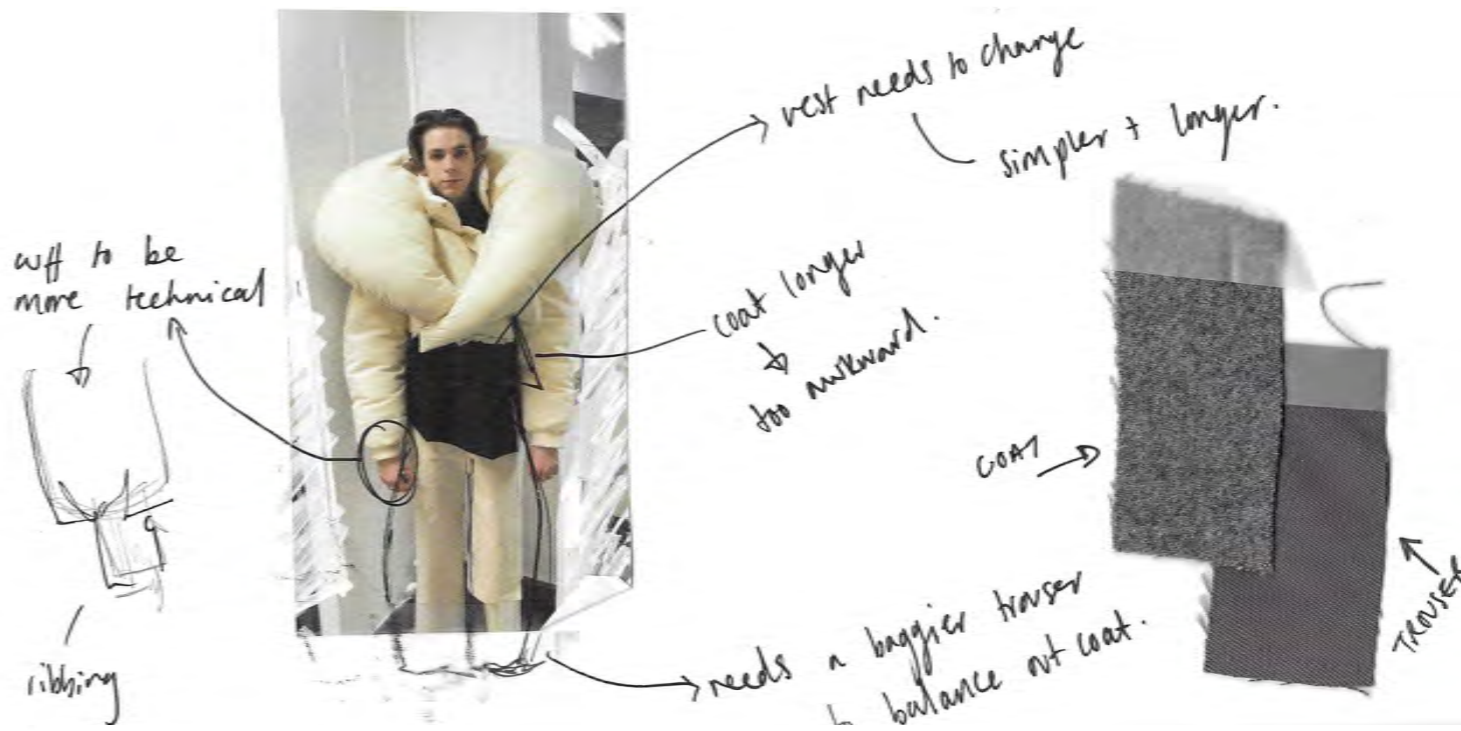

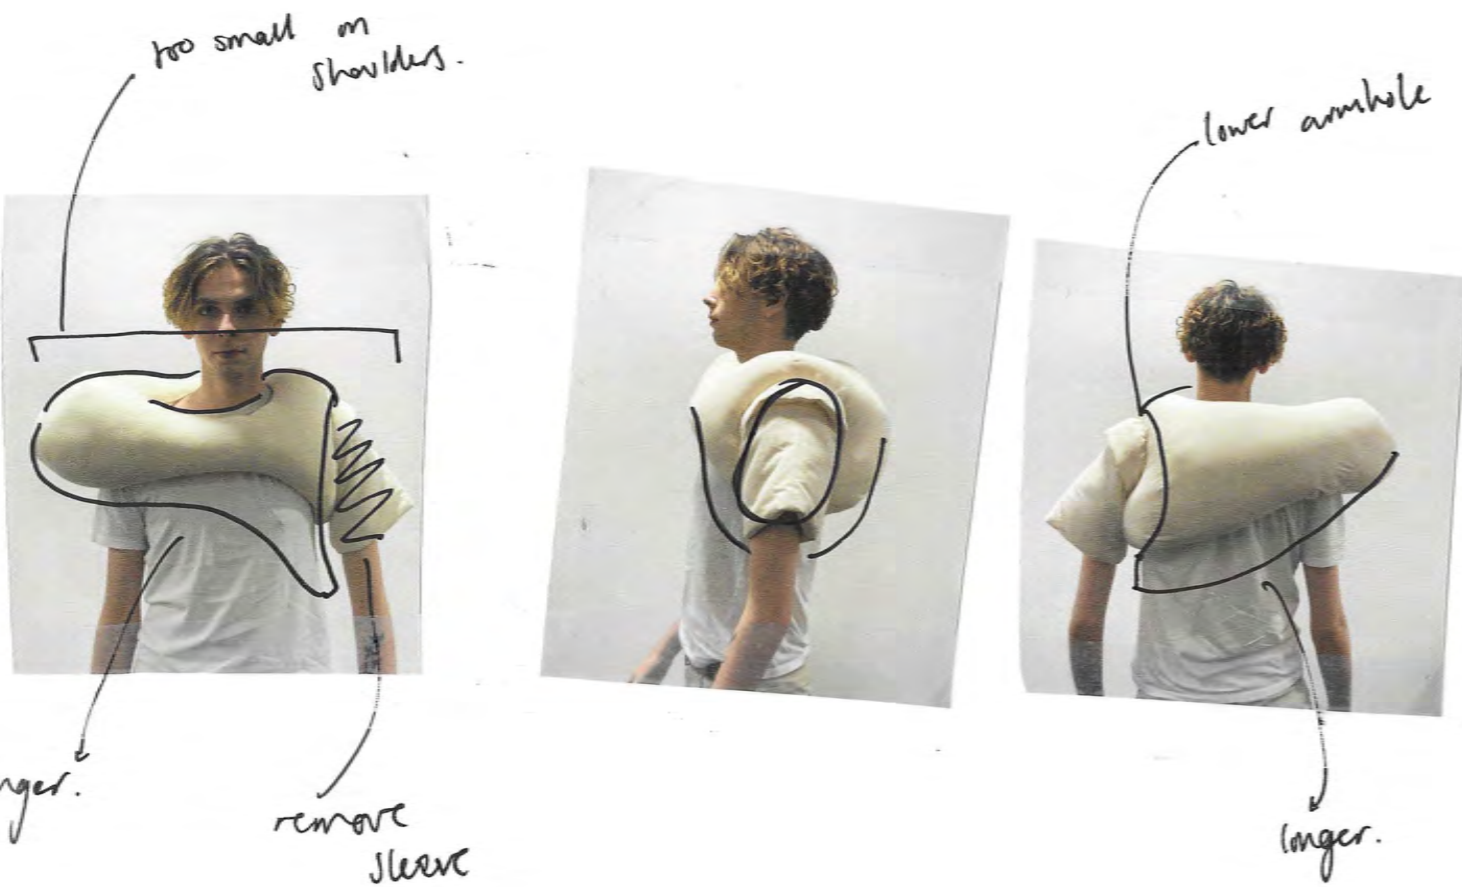

HOOD DEVELOPMENT

different panel configurations?

how could they be fastened?

fully pannelled hood?

coat swings forward.
